

Berge Spoltino

Borgo Spoltino is a blend of true nature: the recovery of an ancient farmhouse from the 800s, the ancient tradition of the barrel vaults, and a scent of tranquility.

*Centuries-old olive trees,
country flavors... let the nature
bring you on a unique trip.*

The emblem of the property is the centuries-old olive tree, planted near the farmhouse nearly 350 years ago. Behind the tree you can catch sight of both the sea and the mountains.

The Borgo Spoltino complex, 10 minutes from the sea and 40 minutes from the Gran Sasso, is the perfect place for those who love to lose themselves in the relaxation of the country or for a definitely unique and suggestive important event: weddings, confirmations, baptisms, holy communions and anniversaries.
